Summary:

Adept AEM Developer proficient in creating dynamic web solutions. Skilled in Adobe Experience Manager for crafting seamless digital experiences.

Technical Skills:

Frontend: JavaScript, CSS, HTML, jQuery

DevOps: AWS

Databases: MySQL, PostgreSQL

Programming Languages: Java, Python

Professional Experience:

AEM Developer - Infosys Limited | Oct 2022 - Nov 2023

- Redesigned and migrated the corporate website of a leading health organization to Adobe Experience Manager (AEM) to enhance brand consistency, improve user experience, and streamline content management processes.
- Developed custom AEM components, templates, and client-side libraries to implement design requirements and facilitate content authoring.
- Enhanced AEM authoring interfaces with custom dialog layouts and client-side validation to improve usability and productivity.
- Collaborated with UX/UI designers and backend developers to ensure seamless integration of frontend components and backend services.

Cloud DBA - Infosys Limited | June 2021 - Sept 2022

- Managed and supported multiple large PostgreSQL databases with over 10TB of data, including backups, restores, monitoring, and performance tuning.
- Designed and implemented a process to migrate all existing databases from one version of PostgreSQL to another version without downtime during business hours.
- Created database security policies that prevented unauthorized access, reducing DBA workload by 80%.
- Created automated scripts to back up the database nightly and restore it in case of failure or migration to new hardware.

Education

Pandit Deendayal Petroleum University

Pandit Deendayal Petroleum University, Gandhinagar | bachelor's degree in information and communication technology | Aug 2017 - May 2021
